Re: Project No. 14862-000-Alaska
Kupreanof Microhydro Project
Mr. Douglas Leen

To Whom It May Concern:

Due to the small size, remote location, and lack of interest of the above project, FERC offers a waiver to the Stage two process which requires a draft submission, with a 90 day comment period, of my application to be reviewed by the twelve agencies listed below.

I am hereby asking your agency if you have any objections to this waiver. If so, please respond by emailing me at: mail@dougleen.com or by USPS mail at PO Box 341, Petersburg Alaska 99833 within 30 days of receipt of this request.

Barring any objections to this waiver, I will proceed with the final stage of the FERC application which you will receive after these 30 days.

Thank you.

Douglas Leen
